

AQUATICS VISION

AN INNOVATIVE 24/7 SMART POOL SYSTEM

A cleaner, smarter pool

Imagine a pool that takes care of itself. Now imagine it's your pool. Aquatics Vision is the only program to keep your swimming pool or hot tub automated and protected around the clock, including a record of data to prove it. It's like having a 24/7 certified on-site pool technician.

Did you know that 12% of pool inspections result in immediate closures?¹ Peace of mind has no price tag. That's why it's never been more important to ensure the health and safety of your guests. As local health codes become more stringent and consumers demand more transparency into their safety and well-being, we can provide you with round-the-clock certainty that your pool is always safe for your guests to use.

- **Crystal-clear water with perfectly balanced pH and chlorination**
- **Real-time monitoring, chemical and mechanical control**
- **No need to replace any existing aquatic equipment**
- **Save money by extending the lifespan of pumps & equipment**

The safest pool possible. The testing information proves it.

Look at your pool. Are you sure it's clean? Harmful viruses and bacteria can breed in poorly treated pool water for days — and there's no way to tell just by looking at it.

Just one health violation could spell disaster for your aquatics facility. Not to mention a negligence lawsuit would cost you hundreds of thousands — if not millions — in legal costs and penalties. It's never been more important to ensure the health and safety of your guests. As local health codes become more stringent, you need a solution that can provide you with round-the-clock certainty that your pool is always safe to use.

The Aquatics Vision Program doesn't just help. It's the first and only solution to ensure water quality code compliance 24/7, in real-time.

24/7/365

System for continually monitoring & adjusting your spa or pool's chemistry

Avoid downtime, nuisance lawsuits, and fines related to water quality

Automated facilities management with reduced wear on equipment

1. According to a CDC study: <https://www.cdc.gov/mmwr/preview/mmwrhtml/mm5919a2.htm>

AQUATICS VISION

HOW THE AQUATICS VISION PROGRAM WORKS

Real time control and monitoring

Continuously balanced and disinfected pool water

30% fewer chloramines

Custom out-of-code alerts and notifications

Instant incident and closure alerts with predictive performance calculations

Complete and accurate historical chemistry data

Track upcoming service appointments and previous repair logs

24/7/365 digital testing and monitoring

WHAT THIS MEANS FOR YOU

✓ Accurate reporting you can trust

✓ Ensure the health and safety of your guests

✓ Eliminate offensive pool odors

✓ Maintain constant compliance with Florida state and local health ordinances

✓ Stay ahead of danger and eliminate it before it starts

✓ Track water quality over time so no imbalance goes unchecked

✓ Maintenance and safety records are always ready for review

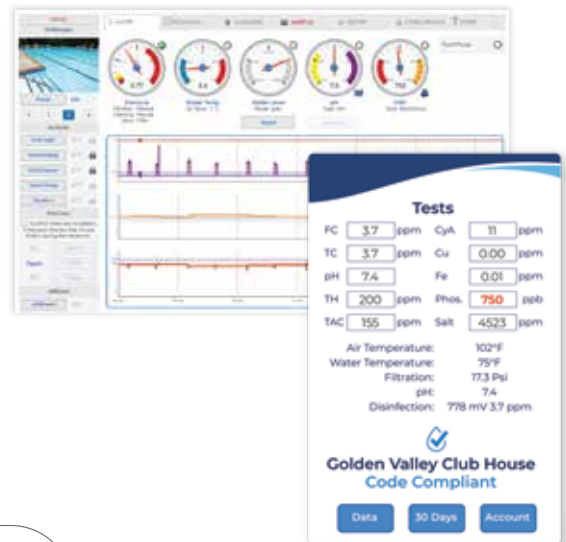

✓ **Peace of mind that your guests (and you) are protected via the clearest, cleanest water possible**
